The following is an examiner's statement of reasons for allowance:

The claimed combination including the limitations directed to a desmodromic valve actuation system comprising an adjustable disk with a slot at an angle that varies valve opening amount and a spring-loaded valve heat compensation device, is not disclosed nor rendered obvious over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Zubeck (PN 6,550,435), Isobe (PN 6,000,375) disclose similar valve actuation systems.
